

Respond with confidence:
Rely on service from Physio-Control

When lives are at stake, you need quality service for your lifesaving devices.

Imagine having a dedicated equipment manager working as part of your team. Someone who understands the intricacies of EMS. Someone who anticipates your needs and makes responding a priority. We'll make sure your lifesaving devices are ready when you need them.

Our service plans go beyond keeping your devices running at peak performance.

Your service representative will get to know you and your team, answer questions specific to your devices, give reminders about proper device operation, and advise you about new features and accessories to help you maximize efficiency.

Onsite service

If you ever need us, your dedicated service representative comes to your location with just one phone call. Backup support from our team is always available.

Expertise

Your service representative is 100% focused on Physio-Control devices. With an average of 14 years' experience, nobody knows your devices better. Because they carry a large inventory of spare parts, representatives can often repair your device onsite.

Customer satisfaction

Our service representatives consistently receive the highest marks in customer satisfaction—an average satisfaction rating of 6.8 out of 7 in our onsite service survey. Because they are part of your community, they are completely dedicated to helping you achieve your goals.

A service plan lets you focus on your mission.

Confidence in the readiness of your device.

- Comprehensive maintenance and inspections can help find issues before they cause problems
- Most repairs performed within 48 hours, if not sooner

Control costs.

- Minimize unexpected costs and make budgeting more predictable
- Stretch your budget further with additional discounts

Less hassle, fewer disruptions.

- Inspection schedules that put minimal demand on your staff and equipment
- Your rep tracks maintenance and device status, and provides documentation for your compliance needs
- Onsite Service option eliminates hassle of boxing up devices and shipping them out when a repair is needed
- No need to get a purchase order or obtain approvals

“The service representative caught a problem we didn’t know we had. He fixed it the same day, and we didn’t have to take it out of service.”

—Small Hospital, Minnesota

“I’ve been in EMS for 27 years, and I can tell you that our representative is top-notch. He’s an extremely pleasant person to work with, and pays great attention to detail. He truly cares for the customer as much as he does the product he services.”

—Small Fire Department, Texas

We're right here—right when you need us.

Every day, you protect the people in your community during all types of events—from festivals to football games, or even when disaster strikes.

With local representatives across the country, Physio-Control is able to respond when our customers need us most.

“Our service representative promptly drove out to our remote station while our fire district was engaged in fighting a major wildfire. This helped us stay in service to our community and focus on the major emergency at hand.”

—*Medium Fire Department, California*

Specific services offered by device.

**LIFEPAK® 15/12
monitor/defibrillator**

**LIFEPAK® 1000/CR Plus defibrillator/
LIFEPAK CR® Plus AED**

**LUCAS® 2/3 chest

Comprehensive Plan

Combines benefits of Repair Plus and Preventive Maintenance Service Plans

Service Plans are also available for the LIFEPAK® 20e defibrillator/monitor and LIFEPAK CR Plus AED; please contact your local Physio-Control Representative for more information.

Service details.

Onsite Services are performed between 8:00am and 5:00pm local time, Monday through Friday, excluding holidays. Customer is to ensure Covered Equipment is available for Service at scheduled times or additional labor charges may apply. Some Services may not be completed onsite. Physio-Control will cover travel and/or round-trip freight for Covered Equipment that must be sent to our designated facility for repair.

Ship-In Service will ship your device to the nearest service center for repairs and inspections. We use only original manufacturer parts, and services will be performed at a designated Physio-Control facility. Physio-Control will cover round-trip shipping (ground only) for covered equipment sent to our designated facility for service.

Loaners will be provided as needed for either Preventive Maintenance or Repairs. Request for loaner through Service Advanced Plan must be made by 10:00am local time to receive the loaner the next day.

Updates are changes to a device to enhance its current features, stability or software. Physio-Control will install Updates at no additional cost, provided such Updates are installed at the time of regularly scheduled Services. Updates at a time other than regularly scheduled Services will be billed on a separate invoice at 20% off the then-current list price of the Update. If parts must be replaced to accommodate installation of new software, such parts may be purchased at 30% off the then-current list price.

Upgrades are major, standalone versions of software or the addition of features or capabilities to a device. For all Service Plans, Upgrades are not provided under the Plan and must be purchased separately. Upgrades are available at 17% off the then-current list price.

Service Plans do not include: supply or repair of accessories or disposables; repair of damage caused by misuse, abuse, abnormal operating conditions, operator errors, acts of God, and use of batteries, electrodes or other products not distributed by Physio-Control; replacement or repair of cases; repair or replacement of items not originally distributed or installed by Physio-Control; Upgrades and installation of Upgrades.
