Dear Valued Customer:

We at Physio-Control appreciate having the opportunity to serve your organization over the years and look forward to our continued partnership. We are committed to supporting your Physio-Control devices for at least 8 years after date of shipment. This letter provides the discontinuation dates after which we will no longer commit to repair, support or perform preventative maintenance for the listed product lines.

We are providing this notification to allow you time to plan for upgrading to newer-technology products.

Physio-Control defines support levels as follows:

- **Repair and Technical Support:** A Physio-Control technician will provide phone support and bring the device to specifications using approved and certified parts as required.
- **Annual Inspections:** A Physio-Control technician will inspect the device to confirm equipment is in satisfactory operating condition.

The following chart lists the discontinuation dates for Physio-Control products that are no longer manufactured.

** Please be advised that some components of these devices may become unavailable before the support termination dates. If this occurs, we will review available alternatives with you.

We thank you for your business and continued partnership. We encourage you to take advantage of any applicable trade-in programs to upgrade to our latest technology for any devices you own that are approaching or have exceeded their eight (8) year service life.
